WORK EXPERIENCE

ASML, San Jose — *UX Designer Intern*

May 2023 ~ August 2023

- Collaborated with Tachyon Application Center Product Management to derive user requirements for E23.06 to E23.10 release tickets.
- Designed user flow diagrams, wireframes, mockups, and prototypes to enhance the interaction and functionality of the Tachyon application and licensing products.
- Facilitated developer meetings to ensure accurate alignment and reduce functional sign-off for the E23.10 release time frame by 50%.
- Created user guides and release notes in Confluence and Jira, providing clear insights for improving Tachyon products' usability.

We are SuperWorks, San Francisco — *UI & UX Designer*

April 2022 ~ May 2023

- Delivered UI/UX design solutions for local businesses, fostering client satisfaction through collaborative teamwork.
- Consulted with clients to grasp needs and pain points, tailoring design services accordingly.
- Utilized Adobe XD and Figma to create flow charts, wireframes, and prototypes across diverse platforms.
- Conducted follow-up user testing and adjustments to guarantee a 100% successful website launch.

Anti-Defamation League, San Francisco — *UX Researcher Intern*

May 2021 ~ August 2021

- Researched digital social patterns and compiled evolving social pattern libraries.
- Utilized Notion to collect and organize examples, including potential privacy concerns in app first-time settings.
- Proposed solutions to enhance user privacy and minimize aggregation of digital social patterns.
