WORK EXPERIENCE

ASML, San Jose — *UX Designer Intern*

May 2023 ~ August 2023

- Work closely with Tachyon Application Center product management by deriving and defining the user requirements for the release tickets from E23.06 to E23.10.
- Develop high-level and detailed user flow diagrams, wireframes, mockups, and prototypes to communicate interaction and functional designs with international multi-disciplinary teams.
- Participating and organizing meetings with different team developers to align accurate implantation of the designs.
- Documents and provides feedback on user guides and release notes for the design by Confluence and Jira.

We are SuperWorks, San Francisco — *UI & UX Designer*

April 2022 ~ May 2023

- Work in a team to provide UI & UX design services for various local business owners and organizations in the Bay Area.
- Consulting with clients to understand their needs and pain points to meet their expectations of the UI & UX design services.
- Creating wireframes and prototypes with Adobe XD and Figma across different platforms.
